

Webmail client and calendars

Introduction

Gdańsk Tech webmail and Gdańsk Tech Calendars applications are available at webmail.pg.edu.pl, which generally provides an integrated system including the following functions:

- Gdańsk Tech webmail – access via the web interface (a solution similar to the Roundcube web client available at roundcube.pg.edu.pl)
- Address book – giving access to the e-mail address data of all Gdańsk Tech employees
- Calendar – a solution replacing previously used calendars
- Task list – reminding about tasks or activities to be performed

Access to "new" calendars and to "new" e-mail is possible via webmail.pg.edu.pl. After going to the website, a login screen is displayed in which you should enter:

- username (login) – such as to the Moja PG portal:
 - **employees** – they provide a short login (written without the domain *@pg.edu.pl*, usually created from the first three letters of the first name and five letters of the surname),
 - **students** – they provide **login** in the format **s<album_number>**, e.g. **s123456** or **login@student.pg.edu.pl**,
- password – same as to the Moja PG portal.
